To Whom It May Concern:

Re. Local Entrepreneur Arslan Karadjaev

It gives us great pleasure to write a true and appreciative letter of recommendation about the quality of services that is being continuously provide to by Mr. Arzlan Karadjaev and his valuable team.

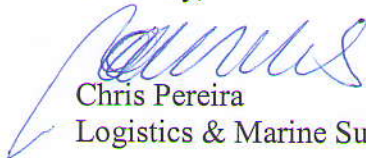

At the present time and for the last 5 years, this company has been providing us with all transportation in-country for our incoming and outgoing personnel with Limousines, overland transportation for materials within the country to the major cities and sites, trailer-mounted trucks within our port areas and camp in support of our offshore and onshore operations, water trucks, sewage disposal, waste mud dumping and rental of cranes for our sites work.

This company had been in service with us even before I joined Dragon Oil 3 years ago. That in itself is a testimony of their competitive, productive, qualitative and enthusiastic nature in all aspects of their services. I must say that they had minor hick-ups which had been rectified with prompt attention by their on-site representative and their employees have become part of our team and automatically know the perimeters of our requirements.

Where and when we had unexpected and unusual requirements propping up, they were the only people who came forward to respond positively with options. I believe this is because of their auxiliary support from which they can depend on.

We will recommend their services to anyone without a shred of hesitation

Sincerely,

Chris Pereira
Logistics & Marine Superintendent

Vlad Pashkin
General Manager DOTD
